

Soulajar "King & Queen"

Visit "[King & Queen](#)" on MotoLyrics.com

You and I are king and queen
of the tiny place and a huge dream
Money just don't mean a thing to me or to you
As long as we have this love to hold on to, you know

You are all I'll ever need in this big old world

These days time flies by so fast
It's a time of day when love don't last
But we'll take our chances that we're going to make it
through
As long as we have this love to hold on to, you know

You are all I'll ever need in this big old world
You are all I'll ever need in this big old world

Hold me close to you, close to you
Hold me close to you, close to you

I'll wrap you in my arms
Rest your bones with me
I'll hold you out in the stars
The night whispers as we sleep

You are all I'll ever need
