All of my life I've been reluctant to climb a mountain
We only live once, and I don't know why
of all God's divine creations
We are the only ones with a self destruct button

And you haven't smiled in days

She told me this world was crazy, people hate their
lives
They become lazy, but I'm this half full kinda guy
Faded dreams; still, I hope it won't die
This knack for words

The pipe dream resounds, it sounds

Living in a false sense of security
with the rest of the world bouncing off the walls
Tonight we sleep in embrace,
and tomorrow wake up in the same place

I need some change,
and I wanna break through

But this traffic is so thick, that if it could break
maybe my fever could too, yeah

My heart races, but never misses a beat
Hovering above with no ground for my feet
A few years ago, sixteen
A freshly painted soul needs to feel need

The pipe dream resounds, it sounds

Living in a false sense of security
with the rest of the world bouncing off the walls
Tonight we sleep in embrace,
and tomorrow wake up in the same place

Living in a false sense of security
with the rest of the world bouncing off the walls
Tonight we sleep in embrace,
and tomorrow wake up in the same place

The pipe dream resounds, it sounds
