Wood panelled garbage lines my street. street lights  
light fires on high heat. you pay - hell no, it's my treat.  
this kind of panic's no small featuring everyone's got  
all kinds of demands - everything that they want from  
this band. i can't say, it's outta my hands. this is the  
hottest band in the land! kiss yr flamethrower we're  
taking a stand! decoder rings out and undo the scam.  
accept this even if you don't understand; better value  
than the national brand. weight like some lesser  
baldwin, not a bath but a cooking cauldron! all the  
geeks together like a squadron took over the math  
department, and it goes like "now that we're in charge  
we can add, put real bad ideas in yr head!" catharsis is  
cheap don't settle for that, the formula becomes a  
steel mental trap. if you still don't get what i'm saying,  
it's by purpose not by plan... snowing cash ashes all  
night now, said "see you later," later's right now. we  
could both walk or we could fight now, what i don't  
think is not my cash cow. everyone's got it right in the  
chest, everything like a rubber bullet. get past that and  
you've passed the test; this is the last step before we're  
impressed. the right outlook can be a bulletproof vest:  
put your hands up, you're under arrest! minds made  
up before i've confessed. never met a truth to which i  
can attest. not for the cutting edge or the sellouts.  
politics jocks can GET THE HELL OUT! can't get with if  
you only wanna shell out, gotta torch the cash if you  
wanna get the smell out. paint the burning bird on  
every block. argument tones removed from the talk.  
figured answers for the questions you pop! ...and then  
the secret meaning of life dr
