The only thing she told me bout this sick sad world,
Is once she caught me cheating she said she would
never be my girl
So I said to myself be as strong as a lion
You'd have to shoot me down before I ever stop trying
She said I need a little of that something
I said, hey, that's better than nothing
I know I know
We got miscommunication
But we ain't stopping til we hear it on the station
Like yeeeeeah, yeeeeeah
Ooooooh yeaaaaah yeaaaaah
I've been waiting for this loving girl!

I miss the love the love the love the love the love
That we used to know used to know

I miss the love the love the love the love the love
That's we used to show used to show

I miss the love the love the love the love the love
That we used to know used to know

I miss the love the love the love the love the love
That we used to have used to have but not no more

There was summer loving in the air
Some of the best times that I ever had and ever shared
It was just you and me sitting on the sand
Baby sipping Hennessey
Dancing hand n hand
Listening to what the DJ's playing for you and me
And we ain't stopping til we hear it on the station
Like yeeeeeah, yeaah
Oh yeaah yeaaah
Yeah yeaaaaah
Oh I've bee waiting for your loving girl!

I miss the love the love the love the love the love
That we used to know used to know

I miss the love the love the love the love the love
That's we used to show used to show

I miss the love the love the love the love the love
That we used to know used to know

I miss the love the love the love the love the love
That we used to have used to have but not no more

Step aside, you're only using me
And I believed your lies
Step aside, you're only using me
And I believed your lies

How it used to be
Between you and me

How it used to be

I'm Just missing as I bust!

I miss the love the love the love the love the love
That we used to know used to know

I miss the love the love the love the love the love
That's we used to show used to show

I miss the love the love the love the love the love
That we used to know used to know

I miss the love the love the love the love the love
That we used to have used to have but not no more
