I'm not sure if it's right
But how could it be wrong
There's a shadow , behind us
And we knew it all along
And in day, and in the day,
And in the night
And in the day, and in the day
And in the night

We'll always be together, we'll always be together
We'll always be together, we'll always be together

And it rains all through the day
And the clouds will fill the sky
There is no getting away
And we know, both know way
And in day, and in the day,
And in the night
And in the day, and in the day
And in the night
And in day, and in the day,
And in the night

We'll always be together, we'll always be together
We'll always be together, we'll always be together
We'll always be together, we'll always be together
We'll always be together, we'll always be together

I'm chained to you and you're chained to me
There's no other way we can be
I'm jealous of you, are you jealous of me
There's no other way I can be
And when I think of you, do you think of me
Do you see the way I see?
I'm chained to you and you're chained to me
There's no other way I can be

We'll be together, we'll be together
We'll be together, we'll be together
We'll be together, we'll be together.
