No escaping
No spell is over me
Fantasy's fact you see in my life
Time and motion
Seem to have made a stop
And if the whole world passes by
I wouldn't bat an eye
If you say you were mine
Chorus:
Fascination all I do is
Fascination dream of you
Such a devotion
I've never felt before
You opened up a door in my life

No tomorrow
Could there be without you
And if you should say goodbye
I think that I would die
Chorus
I can't think about anything else
But you
There's nothing I can do
Oh no, oh no
Nothing I can do
Nothing I can do
I can't think about anything else
But you
There's nothing I can do
Chorus
