"I Remember Yesterday"

Visit "[I Remember Yesterday](#)" on MotoLyrics.com

I remember yesterday...
I remember that first night we met
Dancing to the sounds of clarinets
Dancing cheek to cheek, oh how sweet
You and me and this fantasy
Oh I remember our first night
I remember how we carried on
On and on until the light of dawn
From the very start, you stole my heart
I knew right then we would never part
Oh I remember that first night
Remember that first night
Remember that first night
Remember that first night
I saw your lovelight through the candle's glow
Champagne was flowing, and so I let myself go
And when the night was over,
We both looked around the room
Remember darling, chairs on the table,
And only me and you
I remember how we carried on
On and on until the light of dawn
And from the very start,
You stole my heart I knew right
Then we would never part
I remember that first night
Remember that first night
Remember that first night
Remember that first night
