"If You Walkin' Alone"

Visit "[If You Walkin' Alone](#)" on MotoLyrics.com

When you're walking alone
Can't fight the crowd
And you're pushing the world behind you
Hold don't lose yourself in a crowded place
Or I doubt it if I'll find you
When you have found things were getting you down
Don't try to run away
Just wait for me
And baby you'll see
We'll make it through the day
When you're walking alone
Can't fight the heat
And the people you meet aren't kind
You just put your head out
And take a step
And there's no mountain we can't climb
Oh when you have cried and the things on your mind
Just seem to make you sad
Forget everything
Please come with me
We'll laugh and we'll be glad
When you have found things were getting you down
Don't try to run away
Just wait for me and baby you'll see
We'll make it through the day
Through the day
When you're walking alone
Can't fight the crowd
And you're pushing the world behind you
Hold don't lose yourself in a crowded place
So I doubt it if I'll find you
When you have cried and the things on your mind
Just seem to make you sad
Forget everything please come with me
We'll laugh and we'll be glad
Please come
Please come
Please come
Yeah....
