"Let There Be Peace"

Visit "[Let There Be Peace](#)" on MotoLyrics.com

Someone let communication out the door
Someone decided it's worth fighting for
Why haven't we learned by what we've done before?
Don't you know history's keeping score?
For every boy and every girl
Let there be love
All over the world
For everyone
Under the sun...
Let there be peace on earth
Let every voice be heard
Let there be peace on earth
Brother to brother
'Til it's felt around the world
There's only one world in which we all must live
Heaven show us how to forgive
And on that marble wall which holds a million names
Generations of dreams gone down in flames
Isn't, isn't it a shame?
For every boy and every girl
Under the sun...
Let there be peace on earth
(Why don't you try just a little harder?)
Let every voice be heard
(My brother)
Let there be peace on earth
(Oh, if we could just get it together)
'Til it's felt around the world
We're running out of time
As our leaders roll the dice
The human spirit cries
It's a precious, precious sacrifice
Let there be peace on earth
Let every voice be heard
Let there be peace on earth
'Til it's felt around the world
