"Let's Work Together Now"

Visit "[Let's Work Together Now](#)" on MotoLyrics.com

Different faces other races
New conditions old traditions
All are one
From the humble to the mighty
Those in need and those with with plenty
All are one
Yes we all are one
Let's work together now
Towards a better kind of world
One for our children's child
Let's work together now
Respect our neighbour's way of life
We've got to harmonise
Learn to give without return
And you will find yourself
With all the friends you need
All these problems on this earth
Are only due to selfish acts of men's on greed
Let's stop all this creed
Let's work together now
Let's make a better kind of world
Think of your children's child
Please work together now
Respect each person's way of life
Let's start to harmonise
