Backslide take a dive 2 the right side
And were hellbent downsouth where our summer's
spent
Right time for us all 2 tow our line
Say do say don't chance is ya made us grow

Hit the ground on ya feet and then Head downsouth!
Keep your eye on the prize let it all hangout!

Breakdown don't survive well in this town
And it's on me 2 prove where I wanna b
Catchcry the sun has burnt me dry
My place free space This is my southern town

I can't believe the trap I set 4 me
I can't believe the trap
Downsouth is where I want 2 b
I can't believe that u don't want 2 come And follow me
