And the wheel's revolved and the world evolved
around us
Slipping through this chemistry
This apathy
And I can see the real truth up above, it comes in waves
Was in that note and all she wrote was

Save me from falling in this state I'm in
Catch me I swear it'll Neverend
Save me from falling in this state I'm in
Catch me I swear it'll Neverend

And then the tables turned and the fire still burns
inside me
Flaming through your legacy
Your eulogy
And I can see the real truth up above, it comes in waves
Was in that note and all she wrote was

Save me from falling in this state I'm in
Catch me I swear it'll Neverend
Save me from falling in this state I'm in
Catch me I swear it'll Neverend

Save me from falling in this state I'm in (in this state I'm
in)
Catch me I swear it'll Neverend (I swear it'll Neverend)
Save me from falling in this state I'm in (I swear it'll
Neverend)
Catch me I swear it'll Neverend
