Strap up,strap down;  
I really hope my generation doesn't fall down;  
I've seen my way in therapy,  
I hope I fade,before I age;  
It's so contagious don't you say?

(Chorus)  
When i come to face tomorrow  
I hope I needed it yesterday;  
Then i'll breathe in your life,  
Wrap it up and break away.

Step back, stepdown, step around my  
My face, it bleeds like a ghost  
As I walk back through history;  
The moment fades,pretty stains,  
It's so contagious don't you say?

(Chorus) x2

I'm so depleted;  
Noone needs it  
Noone needs it

(Chorus) x2

I'm so depleted;  
Rain dogged the seasons;  
My golden dreams sold,  
Noone needs it  
Noone needs it
