Sit back as u watch these pigs deceive u
Dress u up with pride so they can beat u down
As a passenger, watch the world roll by
Sedate the fire so it can multiply
Can u still remember? They comatose, arrange
Poison u with weakness So your pacified, deranged

U gotta fight back take control

I'll be the one 2 make I'll be the one 2 take
I'll be the one who knows right for me I'll be the one 2
decide
I'll be the one who's got pride I'll be the one who knows
right for me

One generation 2 the next is backed up
Money is God indeed the purging factor
Power is not disguised when governments empathise
Corporate sentiment is working hard in overdrive
They soothed u into numbness Your mind is all in vain
Pray for the deceivers Sabotage the games they play
U gotta fight back and take control

NO! THEY CAN'T KEEP US DOWN !
