Ive got two things in mind and one of them is you
I know I got nothing to
Loose except the one I love the most
Oh yeah, it's good good good to be
Together
But it would be bad bad bad to live forever
I bet tomorrow everything will come my way
Its like seven wild horses
Trying to pull me down
I bet tomorrow everything will bring me joy
I take your hand in mine and wish you all the joy
Cos when you have no
One to talk to I'll be standing right here by your side
Its good good good
To be together
But it would be bad bad bad to live forever
I bet tomorrow everything will come my way
Its like seven wild horses
Trying to pull me down
I bet tomorrow everything will bring me joy
I bet
Tomorrow everything will come my way
