U! hey yeah, yes u! It's time 2 unwind
Unravel the thoughts in the back of your mind
Stuck in the unconscious
Brought 2 u by the letter designed 4 us
U have 2 unlearn Reject what the teacher taught 2 u
Contemplate what your parents bought 4 u
Examine the Freudian line?
It's TV time!
U gotta lotta things 2 say
So don't u walk away
You've just got 2 empty, empty out your brain

Don't let em get part of ya mind!

U! hey yeah, yes u! I'm aborting guidelines
Taking back the methods of the primetime
Extorter reporters and how?
How did my tank run on empty?
I'm running on the grounds that somehow prevent me
Retarding the facts that u gave me
Slap me, attack me, rap bap da bap me
I finally figured out why!
It's in the I
U gotta lotta things 2 say
So don't u walk away
You've just got 2 empty, empty out your brain
U gotta lotta things 2 say

The I in U is O.K

They'll magnetise your addictions
Limitate u 2 your prescriptions
Sanitise what u need 2 know
Contradict what u need 2 grow
Their garden is full of thorns
Virtue, victims your forlorn
Have they got u where they want u?
Got u where they want u?
