I hear something on the roof top, could it be
The snow keeps falling I should be fast asleep
So hard to vision sugarplums when it's cold
And you have no one there to keep you warm

Merry Christmas, Merry Christmas
Wishing your roof would cave in
Cover you in icy sheets and
You can be as cold as I am

Toy trains, lights on trees, and sleigh bells don't bring
me cheer
The way your eyes did the perfect shade of green
Red-cheeked at fireside I'll slur stories of
The ghost of our past they never let me sleep

Merry Christmas, Merry Christmas
Wishing your roof would cave in
Cover you in icy sheets and
You can be as cold as I am

Up on the rooftop, up on the rooftop
Click, click, click
Down through the chimney, down through chimney
With olde St. Nick

I still got your present so maybe I'll
Pull a St. Nick and sneak into your house tonight
You can find me wrapped up in ribbon tight
Hanging under the mistletoe when you arise

Merry Christmas, Merry Christmas
Wishing your roof would cave in
Cover you in icy sheets and
You can be as cold as I am

Up on the rooftop, up on the rooftop

The ghost of our past they never let me sleep...
