Let's clear the air,
Resolve last night.
My blurry eyes have questions.
How did we fare
On our starlit flight?
Despite the best intentions
Changed directions you know?
Now we can read, we can read the stars
Those seamless curves
Steal my age
And whisper to me secretly.
Let's kill this urge
Don't alter fate.
Afraid of this velocity.
What's best for me? Yeah.
Now we can read, we can read the stars
Now we can see, we can see in the dark
Don't tell a soul. I know where I wanna go.
So high, so low, gonna fly. Gotta get me home.
Runnin' away, runnin' away from here
Back to my own time. No time to waste.
My hopeless plight
An orphaned ghost
Escaping their embraces.
Arrest this life.
You're in control.
Atone for this.
Disgrace us.
They won't chase us. Oh no.
I need to know that you're gonna find a way.
