Now that you're gone it's been a long, lonely time
It's a long, sad, lonely time

Rolling along I'm in a strange state of mind
It's a strange, old state of mind

Memories they mess with my mind
Who am I to deny

She was
So good at being in trouble
So good at being in trouble
So good at being in trouble
So good at being in trouble
So good at being in trouble
So good at being in trouble
So good at being in trouble
So bad at being in love

Now that you're gone it's been a long, lonely time
It's a long, sad, lonely time

Rolling along I'm in a strange state of mind
It's a strange, old state of mind

Memories they mess with my mind
Who am I to deny

She was
So good at being in trouble
So good at being in trouble
So good at being in trouble
So good at being in trouble
So good at being in trouble
So good at being in trouble
So good at being in trouble
So bad at being in love
