Don't try, you'll find  
Was not your fault  
The goal, reach out  
The choice is yours to find

Design, you've got  
The life to guide  
Your faith decides  
The world's your goal to find

Relax, slow down  
They'll hope, design  
Even though he's hard to forgive  
When you can't just fall in love  
Just to know your thoughts you know that  
You'll be all right in time

Design, you've got  
Your life to guide  
Your faith decides  
The world's your goal to find

Design, you've got  
The life to guide  
Your faith decides  
The world's your goal to find
