

## Washed Out "Belong"

Visit "[Belong](#)" on MotoLyrics.com

Let me see who you are, let me see who you are  
Don't try to hide the world that you belong  
Let me see who you are, let me see who you are  
You're better off where you started from

I know it's where you want to go this time  
I see you where you are  
Don't fight  
You're about to figure out it's fine

Let me see who you are, let me see who you are  
Don't try to hide the world that you belong  
Let me see who you are, let me see who you are  
You're better off where you started from

I know it's where you want to go this time  
I see you where you are  
Don't fight  
You're about to figure out it's fine  
It's fine

Don't try to fight  
It's right... it's right
