"Last Song"

I'm the dream you can't remember
No more needle I'm the shake
I'm not your light I'm not your blackness
I'm the last breath that you'd take

I'm not your beginning
I didn't know you then
Far from your beginning
I'm just the end

I'm just the moral to the story
I'm just the laughter to your joke
I'm the last love that you really loved
If you're the fire I'm the smoke

I'm not your beginning
I didn't know you then
Far from your beginning
I'm just the end

I'm the vision to your blindness
I will be here when they're gone
Just close your eyes to see me
I'm the silence after the song
