See-saw soldier with your playground war  
Don't care for reason what your fighting for  
Prey on the weaker but I see much more  
The weakness in you will bring your fall

I know, I know, I know what your seeing  
I know, I know, I know that your believing  
Who are, you are, you are leaving  
I know, I know you are...screaming yellow, (screaming yellow)

Recess warrior with your broken fall  
No one treads beneath your monkey bars  
Keep your distance and you'll see another day  
Until there's no one to play with, no one to fuck with  
No one today

I know, I know, I know what your seeing  
I know, I know, I know that your believing  
Who are, you are, you are leaving  
I know, I know you are...screaming yellow, (screaming yellow)

See how they run, how they cower away  
Keep them in range as the innocence fades  
We are the weak...are the weak

See-saw soldier with your playground war  
Don't know the reason what your fighting for  
Prey on the weaker and the weaker pray  
Until there's no one to play with, no one to fuck with  
No one today

I know, I know, I know what your seeing  
I know, I know, I know that your believing  
Who are, you are, you are leaving  
I know, I know you are...screaming yellow, (screaming yellow)  
Scream, scream...scream more for me, scream more
