thou shall not steal and thou shall not lie  
thou shall not feel, if thou shall not cry  
thou is now real, cause thou is not I  
thou will stop here cause thou has got by

I, I, bleed like the rest do  
I, I, see what has left you  
you try harder, critters overstep you  
byebye, I'm on to the next room

if life's shitty the minute you get it, quit it  
the minute you getting in it, the misery isn't lifted  
you gifted you getting rid of it  
you gotta get your mind right, see what's right in front  
of you,  
we caught up in the limelight

nigga who's going to see it, though this shits killing my  
eyesight  
arguing with myself wondering when am I right  
double check my watch making sure that the times  
right

as the sun settles down and the night awakes  
I got things to do, there's a price to pay  
you neither win or lose so I fight the day  
in the blink of an eye, I walk my life away

as the sun settles down and the night awakes  
I got things to do, there's a price to pay  
you neither win or lose so I fight the day  
in the blink of an eye, I walk my life away

I think we're better off leaving here,  
I think we're better off (x4)

who's to blame that I've gone the same  
looking into my eyes as I watch the flames devour  
my heart, so I go and pray so I close my hands and I  
seize the day

I said I'm, I'm the reason that I left you

angels on the right and the Devil's on the left too  
we bless you the same ones who wreck you  
you, you, the only one you step to

as the sun settles down and the night awakes  
I got things to do, there's a price to pay  
you neither win nor lose so I fight the day  
in the blink of an eye I walk my life away

as the sun settles down and the night awakes  
I got things to do, there's a price to pay  
you neither win or lose so I fight the day  
in the blink of an eye, I walk my life away

I think we're better off leaving here,  
I think we're better off (x4)

in the blink of an eye it can all be gone  
and your spin erects and it all be shown that you  
tried your best and ya just gave up  
and the story that you rolled, it was all made up

now you're sitting on the corner all ate up  
you got bills to pay and it always sucks  
I get minimum wage and it never raise up  
what the hell's going on in here?  
(I think we're better off)

as the sun settles down and the night awakes  
I got things to do, there's a price to pay  
you neither win nor lose so I fight the day  
in the blink of an eye I walk my life away

as the sun settles down and the night awakes  
I got things to do, there's a price to pay  
you neither win or lose so I fight the day  
in the blink of an eye, I walk my life away

I think we're better off leaving here,  
I think we're better off
