If I found a way to be happy every day
If you could just see my face
Y'all would see I'm smiling
The clouds are never grey
If only there was a place
If you could just see my face
then y'all would see I'm smiling

yo getting high getting high boy It's time to break it
down
Grab a mic kill a stage yeah It's second nature now
Mama said I make her proud I told her I made a vow
just to wait around in a year I'll put her in a house
on a shore or on a coast or an island
And every month I'd hop on a plane and fly in
And take shopping whatever she wants I'm buying
She made me who I am I got the heart of a Lion
yeah and for that Mama I'm gratified
Grinding harder than everybody so please don't act
surprised
When you see me patch your eyes quickly as I'm
passing by
Grinding boys strap or die homie I'm a mastermind
uh I got a smile on everyday
Got a taste of the good life and I'm here to stay
I'm used to questions so everybody ask away
Hey It's time to get high homie so pass the J

If I found a way to be happy every day
If you could just see my face
Y'all would see I'm smiling
The clouds are never grey
If only there was a place
If you could just see my face
then y'all would see I'm smiling
If I found a way to be happy every day
If you could just see my face
Y'all would see I'm smiling
The clouds are never grey
If only there was a place
If you could just see my face

then y'all would see I'm smiling

Good vibes good vibes is the only thing we giving off
Oh you say that you feeling it
Haters didn't get the invite huh
But I bet that they hearing this
Making noise off the richter
Kodak lifestyle you better take a picture
Magazine centerfolds naw I'm thinking bigger
Fuck the average Joe man you know I'm tryna differ
uh and so far I think I'm doing it
Anything is possible and boy I think I'm proving it
People looking up to me I'm really kinda new to this
yeah they looking up to me I'm really kinda new to this
uh I got they hands to the ceiling
Boy it's indescribable I can't explain this feeling
My life's so appealing cause boy I'm living for right now
All you people wearing suits you better pipe down
