Am I gon' make it? Am I gon' fail?
And if I don't try, then how I'm gon' tell?
Say that it's heaven they say that it's hell
But we stuck here til we get there

Try to have more faith and less fear
Try to express it to your peers
I'm talking bout dreams
Better to do it and let it be seen
Cause then it's so clear

Look at them flock, isn't it weird
Niggas is groupies, borderline queer
Fuck it, that's the nature of success
We all hold it so dear

How could you judge one, if you was once one
Nigga that might one day become some-
body that make good on his word
Entrances where he come from

Never the less yo come real
Show face to motivate these young ones
And niggas that never give you credit
None, some

Questions go unanswered most of those I give to God
Some, niggas can't be reasoned with
Those gon' be disquali
Normal nine days, my life is anything besides

It's a cold and lonely road
I knew it when I took the job
? on my heart, money on my mind
I got ? in my cd changer, smokin while I drive nigga
