"Burgundy Shit"

Usually I don't like thugs,
Who bust guns, but I got a thing
For this burgundy one
Even know I can't read him
Too much dirt on his palms
For me to see exactly what he got in his heart
Even know I know the 7 letters holding him forever
Even know he got an ex who still around
He will do better
When he's ready,
When he pick me to be...
It is all the same as long as you with me
I see other couples flimsy
We'll be homies till you ready
When other girls you fucking
Start to make you feel empty
I'll be there for that scene
I'll be waiting in the winds
For you to turn to my page
The beautiful begin with me
Are you something by, I can learn
For you

You know what I'm talking bout baby
I never meant to hurt you
I never want to see you cry
For you x 6
