We have seen this sight,
Still in the darkest night
Now it surrounds us
Coming to an end
Easy when you pretend
It hasn't found us
It hasn't found us

With the old parade
Let them all lead the way
We need to see them
Knowing time would pass
We're hoping that it lasts,
That's where it's at, Sam
That's where it's at, Sam
That's where it's at, Sam
That's where it's at

Put all our energy
Into our love
Hoping we'd make it through
Together

With the old parade
Let them all lead the way
We need to see them
Knowing time would pass
We're hoping that it lasts,
That's where it's at, Sam
That's where it's at, Sam
That's where it's at, Sam
That's where it's at, Sam
That's where it's at, Sam
