Wake me up in early morning.
Make me coffee - let's stay in bed.
Take it slow to make me want you.
No more lies and no more regrets!

I want you to be insane.
Pleasure together with pain
Feel it in your heart.
Always play your part.

Chorus:
Let's be insane!
Common, common, babe!
Let me feel your pain.
Let's be insane!
Come on, come on,
Just show me.

Bite your lips for me every day.
Try to catch me - I'll fade away!
Don't you see my eyes in the crowd?
Just touch me - and I'll become insane.

Pleasure together with pain
Feel it in your heart.
Always play your part.

Chorus:
Let's be insane!
Come on, come on, babe!
Let me feel your pain.
Let's be insane!
Come on, come on,
Just show me.
