Silence of the city  
Darkest of night  
You believe I will never be able to leave  
without saying good-bye to you

I'm passing by the places  
where we spent our nights  
I will never forget  
such an innocent smile and shine of your eyes

You are the only one  
and I promise you  
to keep it in my heart  
Now I have to go  
but you should know  
we'll never be apart  
you're always in my heart, my love.

Do you still remember  
how we spent our days  
Every moment was filled with the light of your eyes  
We were crazy but now it's gone

Life is like a journey  
So keep going on  
you will never forget  
'cause I promise to live inside your heart

You are the only one  
and I promise you  
to keep it in my heart  
Now I have to go  
but you should know  
we'll never be apart  
you're always in my heart, my love.
