I see you there by the sea  
Memorize in black and white films  
Conditions improve  
Day after day  
European man searching for

Temptation  
There (there)  
There (there)  
I see you there  
There (there)  
There (there)  
I see you there

I see your face  
in a distant land  
Wonderful and so young  
Twenty-first century plans  
European man searching for

Temptation  
There (there)  
There (there)  
I see you there  
There (there)  
There (there)  
I see you there

I see the world on a wire  
The American way fade away  
Twenty-first century's here  
European man searching for

Temptation  
There (there)  
There (there)  
I see you there  
There (there)  
There (there)  
I see you there
