Oh, anything's possible  
Oh, anything's possible

In motion, the seeds of each moment  
(Oh, anything's possible)  
Travel collide and react

In motion the seeds of each moment  
Travel collide and react  
In motion the seeds of each moment  
Travel collide and react

We're in this together  
We're in this together  
We're in this together  
We're in this together

Thick and thin, bonded  
Atomic, like it or not  
We're the same stuff

Equal and opposite  
Equal and opposite  
Equal and opposite  
Equal and opposite

Oh, anything's possible

We're in this together  
Equal and opposite  
Bring it home

Anything's possible  
Equal and opposite  
Bring it home
