I long to know all your secrets
I want to walk through your fire
Light up my eyes with your smile

I was awakened by magic
I was alone in this world
Take me away from here

Life's being run at a blistering pace
I've been shot from a gun
To your final embrace

My soul, your heart, two worlds apart
This life is all we have

How could they steal all these feelings?
How could they lie to this world?
A picture away from your smile

Life's being run at a blistering pace
I've been shot from a gun
To your final embrace

My soul, your heart, two worlds apart
This life is all we have

One soul displaced, one heart replaced
Feelings defaced, invade our space
No one left to give us back our time

Climb every mountain
Swim through every sea
When all the world is asleep
We could set ourselves free

My soul, your heart, two worlds apart
This life is all we have
Yeah

We could climb every mountain
Swim through every sea
When all the world is asleep

Yeah, we could set ourselves free

We could climb every mountain
Swim through every sea
When all the world is asleep
Yeah, we could set ourselves free

My soul, your heart, two worlds apart
This life
