Come on, is right down here
Tell your girlfriend to stay close, come on!
You don't have to be scared
It's just one of my wars, don't pay 'em no
attention
But now that I got you here
I wanna welcome all you to a celebration of good
music,
Of good memories, of a good.. life
And mainly to throw back Jack pot three

Microphone .. there is no!
Jack refire, the rap Godzilla
I rap fully like ' and Manila
The new! West Philly!
Jack is chilling, Benji is chilling
You need more than a! when I start spilling
You move to fast and crash like!
The new MC! and call me the villain
Jack spit sickness, lyrical illness
I'm from the same part of the city as will Smith
From the same part of the city as!
Walk on a Saturday night like!
Is Frosty, baby, your man is cool as me
But he think it is with that fake jewelry
I guess he figured that black numbers ain't
crowded
Talk and talk..
But the streets can't hear you,
Jack !look at life through my rear view
Now I got a.. haters will see through
I'm about to air you, first as a preview
Go back jack, throw back my jack
Who's fucking with that?
You nigger ain't fucking with Jack
I miss the .. in this rap shit
Welcome me back!
Now you all see what we're going with
What you gotta do is just sing along with the!
(Thrill ya tonight, ooh baby)
