How would you know how far you can go  
Unless you crash and burn  
Throw away your heart and put it on the line, oh  
Guess it depends on how much you want it  
Sometimes it's easy but sometimes  
If you just fall with it you'll find

If you wanna make it in love  
You gotta be ready to give everything  
If you wanna make it in love  
You gotta take risks with your heart  
It's easy to love when you've never been hurt  
And it's easy to hurt when you've never been loved at  
all  
You gotta be willing to fall  
So you can make it in love

Is it smart to be vulnerable  
When someone else decides if you'll be all but doubt  
That's a choice, that you'll have to wait  
Maybe it's not the safest thing  
But do you really wanna be safe amidst the tests that  
come your way

If you wanna make it in love  
You gotta be ready to give everything  
If you wanna make it in love  
You gotta take risks with your heart  
It's easy to love when you've never been hurt  
And it's easy to hurt when you've never been loved at  
all  
You gotta be willing to fall  
So you can make it in love

Don't say goodbye before you try  
Be willing to do whatever  
It's worth the time to make the climb  
So you can grow together  
Forget the past, this love can last  
Call it a new beginning  
No need to ask, 'cause I'm telling you

If you wanna make it in love  
You gotta be ready to give everything  
If you wanna make it in love  
You gotta take risks with your heart  
It's easy to love when you've never been hurt  
And it's easy to hurt when you've never been loved at  
all  
You gotta be willing to fall  
So you can make it in love
