(Hofstede)
East west home's best
There's no place like home
No letters in the box
No voices on the phone
Elevator up and down
Floor one to ten
When I'm almost on the street
I go up again
New flat!
Big table small bed
New kitchen too
Neighbours I've never met
And I don't need you
Home's where the heart is
This heart of stone
Litter in the box
Noises on the phone
New flat big table and a small bed
New flat black white yellow blue red
New flat skyline I'm looking at
New flat neighbours I've never met
There's a suitcase filled with
Interesting papers nervous little
Drawings of the many big inventions
That I've made
East west home's best
Don't be my guest
I wanna be alone
Cos' there's no place like home
