(Peters)

No one can harm me

This is my army

No one can hurt me

No one deserts me

I'm walking up front you're lagging behind

I want action don't need peace of mind

You stay on your own and say we are wrong

You're strange and you're restless you keep looking on

I'm in the crowd I'm never alone

We're carrying sticks and we're carrying stones

You say we are scared I know you are too

Why don't you join us there's a place for you

Join us now why don't you join us

Now why don't you join us

Say why don't you join

I'm walking up front you're lagging behind

I want action don't need peace of mind

You stay on your own and say we are wrong

You're strange and you're restless you keep looking on

You seem to believe the things that you read

Why don't you give up it's all that you need

We only believe the things that we do

Why don't you join us there's a place for you

Join us!!

Now why don't you join us

Now why don't you join us

Say why don't you join
