See me reaching for the stars
And i'm not too far
Find me on the radar
You can call me a sweet boy, sugar Kayne
Pretty boy you know i drive the ladies insane
I sing pop songs but it's all good
Don't get me wrong still from the hood
Going in i'ma gonna tear it up
Fire bars come we burn this up
Yes i'm coming through now it's my turn
So you all best listen and learn
See i'm doing things that i never thought i could
Things happened in the past that never should
People coming out the wood
Works they went before
This is gonna drive labels crazy i'm sure
I know that i got one foot in the door
I guess now all i need is one more
Just tryin to get herd, keep going
Even if my vision get blurred

Chorus:

See me reaching for the stars and i'm not too far
Find me on the radar
You ain't seen nothing yet, ain't seen nothing yet nah
See me reaching for the stars and i'm not too far
Find me on the radar
You ain't seen nothing yet, ain't seen nothing yet nah
I'm flying in the whole different class look up at the sky
And watch me fly past see me on top know that i'm
gonna last
You ain't seen nothing yet nah (x4)

You ain't seen nothing yet
It's just the begging first chapter
Never let negative feedback distract ya
Come along way things are running smoothly
Music's what i do it's my duty
It's hard work but to me it's all fun
Have patience don't' jump the gun
Want this so bad don't think nobody understands

Got my whole life ahead of me
Big plans
From now on it high standards i'm on another level
Till i get where i get where i want to be i won't settle
Staying true to myself i'm humble
i know people are waitng for me to stumble
just doing me creating my own sound
no cutting corners took the look way round
hard work pays off i know for certain
fame won't change me still the same person

[Chorus:]

You ain't seen nothing yet nah (x3)

Step food on the stage crowd go crazy
Bras thrown on stage i can't complain baby
Don't care about the haters hating on me
Still getting paid matey
Its written on my arm failure is not an option
Think carefully before you take action
What you got now is caused by attraction
Take lead of the chain reaction

[Chorus:]

See me reaching for the stars and i'm not too far
Find me on the radar
You ain't seen nothing yet, ain't seen nothing yet nah

Thanks to garbo
