You got me going  
You got me going crazy so crazy, I just want you to be  
my baby  
I don't ever want to let you go  
All the times that I've cried, I need you by my side  
I just want you, I hope you know  
That I'm feeling you baby, I'm feeling you  
It's true I'm feeling you, baby I'm feeling you  
I'm feeling you

I keep it cool but baby you know I'm feelin' you  
Had a crush on you ever since we was at school  
But I guess I never had the confidence to say  
We was in the same class I used to stare all day  
And when you caught me watching I would look away  
But my emotions say it all, you can tell  
When we're both together we're as happy as hell  
All my secrets you're the only person I tell  
You know I got your back yo

You make me wanna fly away you lift me of my feet  
Just take my breath away from me  
You make me smile when you're around  
Cheer me up when I'm down, you take my tears away

You got me going crazy so crazy, I just want you to be  
my baby  
I don't ever want to let you go  
All the times that I've cried, I need you by my side  
I just want you, I hope you know  
That I'm feeling you baby, I'm feeling you  
It's true I'm feeling you, baby I'm feeling you  
I'm feeling you

You once said you didn't like me in that way, you used  
to pretend  
But never did I know you'd end up more than a friend  
Now we're a couple  
Yeah I'm glad to say  
Jumped on a plane we made a quick getaway  
Forget your troubles, you're with me you know I'll keep

you safe  
Far from home all alone in a beautiful place  
Never let nobody ever come between us  
You know that a relationship is useless without trust

You make me wanna fly away, you lift me of my feet  
Just take my breath away from me  
You make me smile when you're around,  
Cheer me up when I'm down, you take my tears away

You got me going crazy so crazy, I just want you to be  
my baby  
I don't ever want to let you go  
All the times that I've cried, I need you by my side  
I just want you, I hope you know  
That I'm feeling you baby, I'm feeling you  
It's true I'm feeling you, baby I'm feeling you  
I'm feeling you

You give me shivers like when a cold wind blows  
Late night on the beach teasing me, body exposed  
Like in the way you've learnt to try and catch my  
attention  
You got my heart beatin' fast when showin' me  
affection  
I know things don't always turn out how they're meant  
to be  
But in this situation I know karma won't be catching me  
So let's cherish this moment we're holding hands  
talking 'bout the future  
I love your smile and I love your sense of humor

You make me wanna fly away, you lift me of my feet  
Just take my breath away from me  
You make me smile when you're around,  
Cheer me up when I'm down, you take my tears away

You got me going crazy so crazy, I just want you to be  
my baby  
I don't ever want to let you go  
All the times that I've cried, I need you by my side  
I just want you, I hope you know  
That I'm feeling you baby, I'm feeling you  
It's true I'm feeling you, baby I'm feeling you  
I'm feeling you
