Slip away, slip away
from my side.
If you don't slip away
I might keep you for all time

Others before have fallen,
been left behind,
but not you,
you're here just in time,
just in time.

Slip away, slip away
if I say it's you.
If you don't slip away
it might be true.

Others before have tried,
it's always been a lie,
but not you,
you're here just in time,
just in time.

Slip away, slip away...
Slip away, slip away...
