You're breaking my heart tonight,  
Kissing me hard, seeing Valentino stars tonight,  
I just wanna party tonight,  
We're breaking all the rules  
But baby it all feels so right

You're breaking my heart tonight,  
Take me for a ride boy,  
Don't leave me on the side boy

Hey guy whatcha doing? I like you a lot  
I been watching you, you're watching me. I think you're hot  
Gold hoops, cherry pie, I'm the apple of his eye  
Jean Paul Gaultier, Versace and yayo

I like, I like, I like this roller coaster ride(ride)  
Don't leave me on the side boy...

You're breaking my heart tonight,  
Kissing me hard, seeing Valentino stars tonight,  
I just wanna party tonight,  
We're breaking all the rules  
But baby it all feels so right

You're breaking my heart tonight  
Take me for a ride boy, don't leave me on the side boy

Hey fly boy you cruising faster than the light,  
Bling is shining bright and you got lightening in your eyes(eyes)  
Gold chains, kissing fly, leaning on your chrome ride,  
Versailles, St. Tropez, lingerie and yayo

I like, I like, I like this roller coaster ride (ride)  
Don't leave me on the side boy...

You're breaking my heart tonight,  
Kissing me hard, seeing Valentino stars tonight,

I just wanna party tonight,  
We're breaking all the rules  
But baby it all feels so right

You're breaking my heart tonight  
Take me for a ride boy, don't leave me on the side boy

I know we fight, we go out every night  
But what do you expect from a Hollywood lifestyle?  
He says it's wrong, no baby boy it's right  
Passion is a thing you can't buy, its hard to find

You're breaking my heart tonight,  
Kissing me hard, seeing Valentino stars tonight,  
I just wanna party tonight,  
We're breaking all the rules  
But baby it all feels so right

You're breaking my heart tonight,  
Kissing me hard, seeing Valentino stars tonight,  
I just wanna party tonight,  
We're breaking all the rules  
But baby it all feels so right

You're breaking my heart tonight  
Take me for a ride boy, don't leave me on the side boy(boy)
