Disco GoGo Dancer so rare  
Move down & up slow n' prostitute stare  
I do what I like I just don't care

I am my only god I am my only god  
I am my only god  
now

Black eyes short dress lets break it down  
You shoot and I pose polaroid frown  
I'll do what you like I wont make a sound

I am my only god I am my only god  
I am my only god  
now

Icon young star heroin fiend  
Just sit n' I'll sing I'll be yr queen  
You know how I like that celebrity type  
poor me

I am my only god I am my only god  
I am my only god  
now
