They say I'm wasting time, they said that I'm no good  
'Cause I'ma love my life, not doing what I should  
Call me poison ivy 'cause I'm far from good  
Pretty from afar, like a dark star

They think I'm dangerous, they think I'm really bad,  
I'm just making up for what I never had  
Go out every night whenever I feel sad  
Oh this drive by love got me crazy like a drug

I wear my red lipstick, got my make up on  
Stumble into trouble, siren with a sad song  
They all got girlfriends but i'm the one that they want

Miss America with the blue mascara on

I spent my whole life driving in cars with boys,  
Riding 'round town drinking in the white noise  
Used to talk about where we've been and where we go.  
Now we know, baby, now we know  
Spent my whole life wasted in bars with boys  
Playing rock n roll dancing in the loud noise  
Used to talk about where we've been and where we go.  
Now we know, baby, now we know

Mommy's Mercedes or Billy's pick up truck  
Comes out late at night and baby picks me up  
Tell him just drive on and d-don't ever stop  
Don't take me home again, take me to a new land

I wear my red lipstick, grab my coat and gun  
Wonder if this is it, its darkest before dawn  
Sometimes I wanna give in but I just have to go on  
Miss America now I'm gone, baby, gone.

I spent my whole life driving in cars with boys,

Riding 'round town drinking in the white noise  
Used to talk about where we've been and where we go.  
Now we know, baby, now we know  
Spent my whole life wasted in bars with boys  
Playing rock n roll dancing in the loud noise  
Used to talk about where we've been and where we go.  
Now we know, baby, now we know

I was born to live fast die young  
Leave a beautiful corpse, live my life on the run  
Got my cash, my Louis Vuitton, diamonds and guns  
Girls just wanna, just wanna have fun

I spent my whole life driving in cars with boys,  
Riding 'round town drinking in the white noise  
Used to talk about where we've been and where we go.

I spent my whole life driving in cars with boys,  
Riding 'round town drinking in the white noise  
Used to talk about where we've been and where we go.  
Now we know, baby, now we know  
Spent my whole life wasted in bars with boys  
Playing rock n roll dancing in the loud noise  
Used to talk about where we've been and where we go.  
Now we know, baby, now we know
