Platinum and vale acrylics  
Skim the paper for the critics  
Babys breathin' Elvis lyrics  
on the cover bar

Late, an' Motel lounge is singin'  
Spotlight on the band is swingin'  
Chateau Marmont memories fading  
hope is very far

Elvis where are you when I need you most?  
White comp sequin jumpsuit ghost  
Pick me up and make a toast  
Champagne in the air

Tipping back, his head relaxing  
Thank you very much an' I'm laughing  
All my chantilly lace catchin'  
Baby, on the chandelier

Sweeping scents and blue hydrangea  
Summer hail and summer stranger  
Baby, he's in constant danger  
help is very far

You look like a Florida Native  
Are you? I said, at the rate of  
Slow molasses from the State of  
Vermont with the Southern drawl

Elvis where are you when I need you most?  
White comp sequin jumpsuit ghost  
Pick me up and make a toast  
Champagne in the air

Tipping back, his head relaxing

Thank you very much an' I'm laughing  
All my chantilly lace is catchin'  
On the chandelier

He said he come to welcome warn me  
Gesture diamond to adorn me  
Come to be and see the one and only  
For my final year  
well thank you

Elvis where are you when I need you most?  
White comp sequin jumpsuit ghost  
Pick me up and make a toast  
Champagne in the air

Tipping back, his head relaxing  
Thank you very much an' I'm laughing  
All my chantilly lace is catchin'  
on that chandelier

Its catchin' on that chandelier [x2]  
Where are you when I need you most?
