I was lounging in the Chateau Marmont
Glimmering by the swimming pool
My man walked in like a slow motion movie
I said "you're so cool"

I heard a man screaming
Lights, camera, action
I c-c-can't remember what happened
I overdose

You throw me over your shoulder
I was dying
You were screaming
Open up that Lamborghini

Open up your butterfly doors
Heavy Hitter

Open up your butterfly doors
What do you say
Open up your butterfly doors
Heavy Hitter

Let's c-c-change our DNA
Let's change our DNA

You're the King
My fear baby
I'm the Queen of Alchemy

I know a way to make gold by mixing our souls to escape reality

Queen in Monterey
Run to that ocean
I got that magical trance potion
Gotta leave
I can't wait 'til I'm older
You was laughing
I was running

Use that remote to open up

Open up your butterfly doors

Heavy Hitter

Open up your butterfly doors

What do you say

Open up your butterfly doors

Heavy Hitter

Let's c-c-change our DNA

Let's change our DNA

You can be my higher power baby

I can be your endless USA

We can go on drives for hours baby

Let's change our DNA

Let's change our DNA

Let's change

Open up your butterfly doors

Heavy Hitter

Open up your butterfly doors

What do you say

Open up your butterfly doors

Heavy Hitter

Let's c-c-change our DNA

Let's change our DNA

Heavy Hitter
