"Let Heaven In"

Once in a lonely dream
We lived as one
Kindred spirits, locked together
And I've known you for all time
Never ends my love

I've traveled time to find
Home in your eyes
Send your light my way

Forevermore, love make us one
If not now then when, let's let heaven in
Here me touch me, let heaven in

Seven times seventy oceans
Fill my heart
Could I pour them out
Just to let you know
But I fall so silently
Deep inside my soul

I've traveled time to find
Home in your eyes
Send your light my way
Forevermore, love make us one
If not now then when, let's let heaven in
Here me touch me, let heaven in
Forevermore, love make us one
If not now then when, let's let heaven in
Here me touch me, let heaven in
