Lay me down in pity roses
Touch my lips before I sleep
You're with me now and when I close my eyes
You're in my dreams and pain's to deep

Like a candle in the rain
A missing to put out
Like a picture through your window
You see right through my heart (x2)

I never knew... that nights could be so long
Without you...
And only time will heal...
Time will heal all wounds... (x2)

(Guitar solo)

Lay me down in pity roses
Feel the thoughts they cut my heart
Four drops of blood before he takes with all my tears

Have a given and put life

Like a candle in the rain
A missing to put out
Like a picture through your... window...
You see right through my heart...

I never knew... that nights could be so long
Without you...
And only time will heal...
Time will heal all wounds... (x2) Yeah yeah yeahhhhh!

(Guitar solo)

I never knew... that nights could be so long
Without you...
And only time will heal...
Time will heal all wounds... (x2)
