For putting your family first
and those incredible thankless meals.
For those nine months you carried me.

For your big heart inside, I will feel endlessly indebted.
For investing in endlessly stress, I will feel endlessly
indebted.

For those late nights you were there to talk.
For loving us no matter what we did.
For having that first martini

And understanding about the Miata...

For your big heart inside, I will feel endlessly indebted.
For investing in endlessly stress, I will feel endlessly
indebted.

Took my fears away.
Held me close and safe.
Fed the strength for life.

Almost scary how perfect you are.
