I'm still awake
I'm lonely and longing for you
You come and love me
Then you leave me feeling empty and blue

You are always running, always hiding, always playing a game
Coming back for more you disappear by the end of the day

I want you to stay
You never stay
Come on and stay
I wish you would stay
But you never stay

Don't keep me waiting
Heaven won't call
Anticipating
Come on heaven won't know

When I look to your eyes I feel guilty as hell
I know our love is forbidden but I still don't care

The fire in your touch on my skin makes my body shake
You're coming back for more you disappear more than I can take

I want you to stay
You never stay
Come on and stay
I wish you would stay
But you never stay

I want you to stay
You never stay
Come on and stay
I wish you would stay, stay, stay,

STAY!
