What if I told you that you were the one for me
Would you believe that everything is not as it seems

I've learned through experience that stories aren't easy
to keep
But this story of you is dying to be written down by me

chorus
Tell it like it is
Don't leave anything out
Anything at all

Tell it like it is
Don't leave anything out
Anything at all

What if I said you'll never ever change my mind
You can give me weeks and months and days but I'll be
hanging on the line

I've heard the grape vine that you weren't so easy to
please
But I'll take my chances cause you never met a girl like
me

chorus
Tell it like it is
Don't leave anything out
Anything at all

Tell it like it is
Don't leave anything out
Anything at all
